Washington, August 26.—It is a frequent matter for speculators to visit Europe for the purpose of trying to recover for the government property of the late Confederate States, many millions of dollars worth of which is said to exist there. Efforts have been made by former secretaries of the treasury to re-cover this kind of property through civil process, but never with success. The govern-ment has now adopted the plan of offering a good commission in the way of a heavy per-centage on the value of the property recovered to the persons making the recovery There are now a number of persons in Eu rope trying to earn the tempting offers of the treasury department. One returned recently after an unsuccessful hunt.

WASHINGTON.

The missing link in the documentary evidence in the Casanave transaction has been supplied. When the negotiations were going on Webb Hayes came to Judge Shellabarger's office and named nim one thousand dollars, saying that was all that could be raised just then: It was too late in the day to transact any business involving the payment or transmission of money, so Shellabarger told Casanave to go home and sleep soundly as the matter would be arranged and his property saved. Judge Shellabarger arrived at his office next morning, thirteenth, very early, and found Webb Hayes there waiting. He at once accorded Webb a private interview, and the latter said that his father wanted that one thousand dollars held back; that a detective had informed his father that there was "collusion and fraud" dence in the Casanaye transaction has been father that there was "collusion and fraud" between Casanave and the New Orleans attorneys. The house is a rickety wooden shanty, one of a score of miserable hovels near Seventh avenue, in which negroes live in filth and squalor. Admission from the street is gained through a gate that leads also to a labyrinth of foul stables and sheds. In the corner house, No. 300 Seventh avenue, H. Mannis keeps a second-hand furniture store, and employs a number of young men. For four or five days these men have noticed a peculiarly offensive smell, that each day grew more overpowering. Search was made for the cause in the store and in the loft above, where the odor was worse than below. A dead rat was discovered under the flooring and was removed, and it was thought that the nuisance would cease. It become by the twentieth precinct police, under exthat the nuisance would cease. A thorough search of the house was again made, and it was now noticed that of-the-way corner on the second floor was closed and bolted from the inside. No answer was given to repeated knocking, but it was plain that the source of the evil was in the room. Somebody now remembered that an old colored cook who began to live in the room a month ago had not been seen since Wednesday evening of last week, when she Wednesday evening of last week, when she locked herself in at bedtime. It was known that her name was Hannah Dunkins; that she went out cooking, and that she was apparently friendless. No one had missed her and no one had asked for her. The police were hurriedly summoned, and Officers Edwards and Boylan responded. The door was broken open and the mystery was solved A five by seven, low-ceiled room contained an iron bedstead and an old table, and upon an iron bedstead and an old table, and upon the floor that was covered with strips of old carpet lay a half-emptied whis-ky flask. ELMWOOD, THE GARDEN OF THE Deticated to the Memory of Brooks Wilson, Buried July 31, 1879. C. MASON LANE.

Lowly in this garden lying.
With the somber shadows flying
hem, and the roses dying which bedeck their
narrow bed;
While for them our hearts are crying
Sadder than the night-wind sighing
he turf above them drying, sleep our dear,
lamented dead!

Slumber they, the sod concealing
Them from us, while Time is stealing
Swiftly on, and gently healing wounds that rankle in
each breast.
Dim forgetfulness is dealing
Out to us relief, and sealing
Up within its tomb that feeling of dire anguish and
unrest

That, unbidden and unwanted,
Has pursued and sorely haunted
Our crushed spirits while they panted for a moment
of respite;
And where sorrow set and taunted
In our hearts has Hope, undaunted,
Her ensign and image planted, with her standardbearer bright.

Therefore, though our lov'd lie sleeping,
With the green grass o'er them creeping.
And the drooping daisies keeping watch above them,
mould'ring there,
We will not engage in weeping;
But continue bravely resping
In God's vineyard, until sweeping up, we mount the
golden stair.

Till to longer stay, not daring.
Where temptation sits ensnaring.
From Earth's toil our spirits tearing, we soar up to endless rest.
We shall see our loved ones wearing Robes of living light, and bearing in their hands the palm, and sharing in the glories of the blest.

When our hearts shall cease to quiver;
When Death's sickle shall deliver
Us to Charon, at the river, o'er the billows to be led
To the land where parting never
Comes, we will with them forever
Live and love, nor can aught sever us, then, from our
hallowed dead!

Infallibly Cure all Skin and scalp Diseases, Scaly Eruptions, Itchings, and Irritations.

The testimonials of permanent cures of Skin and Scalp Diseases which have been the torture of a lifetime, by the Culicura Remedies, are more wonderful than any ever tefore performed by any methods or remedies known to the medical profer sion.

Outicura Resolvent, a powerful Blood Purifier, is the only purifying agent which finds its way into the circulating fluid and thence through the oil and sweat glands to the surface of the skin, thus destroying the poisonous elements with which these vessels have been daily charged.

Outicura, The Great Skin Cure, applied externally, arrests all unpatural or morbid growths which cover the surface of the diseased glands and tubes with Scaly, liching and Irritating Humors, speedily it removes them, leaving the pores open, healthy and free from diseased particles of matter.

Thus internally and externally do these great remedies act in conjunction, performing cures that have astonished the most noted physicians of the day.

from the Use of Cutieura.

Misses, Where & Potter.—Gentlemen: We have a case of leprosy in our poorhouse which is being cured by your Cuticura remedies. The county had employed all of our doctors and had sent to New York for advice, but to no avail.

The patient commenced using the Cuticura and immediately began getting better.

He had been confined to his bed for two and one-half years. Had not had his clothes on during this time! Last week he dressed for the first time. When he walked, there would at least one quart of scales come off of him.

This happened every day.

We think it is a wonderful cure.

We do not say he is cured, but he is in a fair way to be cured to say the least. Yours truly.

LINDELL HOTEL, ST. LOUIS, Jan. 10th. 1879.
For three weary years I have been the victim of Malaria, in all its forms, having used scores of such articles as Tonics, Ague Pills and Agu-Pada, but never finding permanent relief. As a last reso. I gave your Clifford's Febrifuge a trial, and I only deem it due you to say that the first bottle has not enly stopped the Chills, but has thoroughly cradicated this dreadful disease from my system. I feel that your medicine has saved my life.

Yours, with gratitude. JAMES F. LOBDELL, **FEBRIFUGE**

Is the highest achievement in the manufacture of Gold Pens and the result of experiments for more than twenty years. The "RECORD" Pen is produced by a skillful combination of the two precious and non-corrosive metals; 16 kr. Gold and Platinum, while the ordinary gold pen contains an alloy of copper, reducing its fineness without yielding that elasticity, density and steel like temper which the costly Platinum supplies. The "RECORD" Gold Pen Points are of the best Iridium. (Diamonds.) indestructible with fair treatment, and polished to glass like smoothness. Steel pen writers have now every objection to gold fairly overcome, and every requirement in a Pen which will endure and not oxidize, squarely met. The "RECORD" Gold Pen is guaranteed to possess Durability, Permanency of Spring and Perfection of Point. Price, \$2.50, sold by all Jewells and Stationers in the United States. If not found order direct from JOHN HOLLAND, Manufacturer, 19 W. 4th St., Cincinnati.
